

TWO MILES OF TRAINS LEAVE CHICAGO FOR WEST

On Last Day of Tourist
Rates on Santa Fe.

THOUSANDS BOUND FOR
CALIFORNIA ON ALL LINES

The end of the tourist season on the Santa Fe last Thursday saw two solid miles of passenger cars leave the station in Chicago bound for the far west and the Pacific.

As the trains started out No. 1 ran in six sections, No. 7 in two sections and No. 3 in one section. It was the biggest bunch of passenger rolling stock that has left the east end of the system for years on the regular tourist rates to the west.

General Manager J. E. Hurley has expressed himself as amazed at the amount of business the Santa Fe is doing this fall, which he asserts is unprecedented in the history of the system for so early in the season.

"Our California business for October," said Mr. Hurley, "was almost as heavy again as that for October last year and if it keeps up, as it undoubtedly will, I look to see all records on the road eclipsed."

Three Thousand Leave Chicago.

According to reports of the agents of the various roads, three thousand people and over left Chicago last Thursday over the different lines, bound for California on one way colonial rates. The Santa Fe got the bulk of the traffic, but thousands went over the other transcontinental lines. A dozen extra cars were left routed over the new Santa Fe line which is proving a formidable competitor of the Santa Fe in the homecoming carrying business. Most of the Santa Fe business came from Chicago, although Kansas City was also a great gathering point for the westbound tourists.

Crowds in El Paso.

The last three days of the last week saw record-breaking crowds of home-seekers pass through El Paso on the various lines. On Friday the Galveston, Houston and San Antonio brought in 125 passengers for points west of the Pass city. The Texas and Pacific carried about a hundred and 44 came over the Rock Island to be sent west over the Southern Pacific. On the preceding day the Rock Island brought in 425.

SANTA FE TO MAKE STATIONS MORE ATTRACTIVE

The Santa Fe management has decided that its city ticket offices, depots and gardens around the stations along the line shall be beautified with flowers and ferns and plants. A competent person has been engaged to superintend the placing of plants and palms in the city ticket offices, also at the depots and in the gardens at the various stations along the line. At Galveston, Texas, a large garden is being nursed and there it is intended visitors to Texas will receive early impressions of sunny Texas after crossing the border.

The potted ferns, palms and flowers will be sent out by the professional florists and changed from time to time. It is said to be the first time on record where a large railroad system contracted for living flowers to be used as permanent decorations along the line. Usually this is left to the station or depot agent, and he usually furnishes the flowers and grows them. The Santa Fe has been negotiating for a long time and has finally closed a deal, which is for a large amount.

Santa Fe Men Re-Elected.

Directors of the Atchison, Topeka & Santa Fe railway company held last week their first meeting since the annual meeting of the stockholders, which was held in Topeka on October 26. Plans of the officials for the improvement of the road and service next year were discussed by the directors, but no definite action was taken on any of them.

All of the present officers of the road were elected to serve another year. These are E. P. Ripley, of Chicago, president; Victor Morawetz, of New York, chairman of the executive committee; E. D. Kenna, of Chicago, first vice president and general solicitor; J. W. Kendrick, of Chicago, second vice president, and George T. Nicholson, of Chicago, third vice president.

Hurley Goes the "Pollywog."

"J. E. Hurley, general manager of the Santa Fe, made a trip over the Pollywog last week," says the Leavenworth Times. "He may have enjoyed it. Tastes are uncertain and various. But there is one thing about Mr. Hurley, he is a man with a great deal of courage. Perhaps he is a sport by the test of being 'willing to go against anything once.' It is not recalled that any of the other officials of the Santa Fe ever made a trip over the whole course of the Pollywog. Jerry Black used to ride sometimes from Holiday to Leavenworth, but never the remainder of the distance. However, Mr. Hurley made some observations during his jaunt (jaunt meaning either a pleasure trip or to be jolted) that will result in some improvements on the Pollywog. We shall have to conjecture as to that. But, anyway, Hurley knows now just what the Pollywog is, and that's something."

Application has been made by the Santa Fe railroad for the right-of-way to condemn the right of way 120 miles in length from Tulsa, I. T., to Shawnee. This makes an eastern Oklahoma line connection, giving the Santa Fe the shortest route by many miles from the Gulf to Kansas City and Chicago.

Rock Island Elects Officers.

The board of directors of the Chicago, Rock Island & Pacific railway at a meeting in New York during the week re-elected the retiring officers and chose the following members of the executive committee: W. H. Moore, D. G. Reid, R. F. Younkum and W. B. Leeds, of New York, and J. H. Moore, Marshall Field and Robert Mather of Chicago.

The board of directors of the Rock Island company, less one of the Rock Island system of railroads, re-elected its retiring officers and chose G. T. Boggs, of East Orange, N. J., vice president as well as assistant secretary and assistant treasurer, and J. J. Quintan as vice president.

SOME NEW IDEAS IN ROUNDHOUSE BUILDING

As the roundhouse of the Santa Fe at Sunbow, Texas, near completion, it looms up as one of the most peculiarly constructed buildings of its kind in the country, and at the same time it is built on lines that make it one of the best ventilated roundhouse structures in Texas at least, if not in the United

States, says the El Paso Herald. The building is put up on a plan entirely different from others of its class and the thing that strikes the traveler most forcibly is that the back of the building is higher by at least fifteen feet than the front. This is contrary to the accepted mode of building that class of structures, as the front is generally a couple of feet higher than the back.

The roof is built on the steep plan from the back wall to the front, with the down step made as a ventilator, which allows of the instant disappearance of all smoke from the locomotives that gather in a structure for housing engines, and keeps it always clear of fumes and well aired at the same time. It will not be long now until the building is finished and when it is the Beaumont division of the Santa Fe will have the best appointed, if not the largest, round house on the entire Santa Fe system.

The machine shops are also to be modern in structure and built on the generally accepted plans of Northern ideas for such structures, that is, a saw tooth roof, which permits of perfect ventilation throughout the entire building, and at the same time insures plenty of daylight at all hours of the day.

J. H. O'RIELLY & CO.

Tell Why They Endorse Vinol So Highly.

First: Vinol contains in a concentrated form all the medicinal curative elements of cod liver oil, actually taken from fresh cods' livers, but without a drop of oil to nauseate and upset the stomach, and retard its work, therefore where old-fashioned cod liver oil or emulsions will do good Vinol will do far better.

Second: Because Vinol is not a patent or secret medicine, it contains no injurious drugs to react upon the system, and you know just what you are taking, as everything it contains is printed on the back label of every bottle.

Third: Because Vinol acts first upon the stomach, creates a healthy appetite, tones up the digestive organs, purifies and enriches the blood, and in a natural manner health is restored, and strength is created.

Fourth: Since we first put Vinol on the market our admiration for it has steadily increased, because it cures disappointed customers, in fact we can truthfully say we never sold a medicine more satisfactory to create strength for old people, weak, sickly women and children, nursing mothers and to build up strength after a severe sickness.

Again Vinol is endorsed by eminent physicians and guaranteed by over two thousand of the leading druggists of this country. These are some of the reasons why we believe in Vinol. J. H. O'RIELLY & CO.

Whitewash Your Chicken House With Hahn's Eureka White Lime. Keeps out lice.

W. E. NEAL, Albuquerque, New Mexico.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that L. would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I enclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourselves.

I hope to have the pleasure of meeting you here soon.

Very sincerely,
W. V. WHITMORE.

WOULD YOU LIKE TO HAVE A POLICY LIKE THE ABOVE? WE HAVE A FEW MORE LEFT. FOR FULL PARTICULARS WRITE
